Title should be changed to reflect elected invention. <sup>Amendment, page 3</sup> ~~Page~~ instruction as to paragraph on page 15, line 1, seems incorrect, should the insertion be cancelled and replaced by one to – page 15, line 10 ---?

Third drawing sheet objected to, it should be labeled "New sheet".

Fig. 7C, addition of portion of VED 702 with pin 718 aligned with slot 715 is suggested to improve disclosure. The numerals 715 could be moved to provide space for such change.

In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

Claims 15-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gordin alone or taken in view of Bellek.

See last office action, page 3, lines 11-20.

Basically Gordin, fig. 1, discloses an enclosure 11 for a lamp 14, a hinged cover 28 with a top and a sidewall and a feature that apparently forms a hinge that supports the cover in open position. Gordin does not disclose "VED" aspect and the hinge "hold in open position" while appearing to be present explicitly, mentioned.

Art Unit: 2839

Lamps like that at 14 are well known to be vacuum device that use electronics. Therefore obvious to provide lamp 14 as such VED. Also obvious to form Gordin with a hinge like that of Bellek, figs. 6, 7. This type hinge would guide movement of the cover and would hold it in open position, see Bellek, fig. 7.

For claim 16, Gordin at 26, 24 discloses means for power interruption and for claim 17, the Bellek type hinge inherently includes means for preventing galling, etc. Further a lubricant layer would serve such purpose.

Claims 1-5, and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gordin in view of Zerwes.

Gordin, figs. 6, 7 includes a lamp or VED box 11 and covers 128, 129 with tops and sidewalls and hinged to the box 111. The device lacks guide plates with tracks together with cover guide elements. Zerwes figs. 1, 2, 4, 15 discloses guide plates 16 with tracks 24, 24" and a cover 14 having guide elements 46. It would have been obvious to use such a cover system for the Gordin system for 128 or 129. This would enable the cover to be held in open position. Claims 2, 3, 5 met by such cover system., Claims 4, 7, figs: 15 slot 24" has notch 158 and is also read as L-shaped.

Applicant's arguments filed with the amendment have been fully considered but they are not persuasive. Arguments on page 15, 16 refers mainly to use of means for aligning as an "L-shape track", however this feature is not recited in any of claims 15-17 and cannot be relied upon to avoid the rejection. As to claims 1, etc, note that certain prior limitations have been deleted.

Art Unit: 2839

The following is an examiner's statement of reasons for allowance: Claims 8-14 all recite features not taught or suggested by prior art of record. For claim 6, Gordin, figs. 6, 7 are applied and to modify the system in view of Zerwer as discussed above and to "also" form it to include power interrupt as in Gordin, fig. 1 at 26, 24 would amount to substantial redesign of the system and would not have been obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Nishimura discloses are lamps to be vacuum electronic devices.

Claims 6 and 8-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
